Job Summary

We are looking for a **SQL Server Developer** for our India based Consulting Services team based in Delhi-NCR. If you are looking for challenge and variety in database development work you will find plenty of it at DTA. We specialize in Oracle and SQL Server database and data warehouse related development work and have been at it for 20 years.

As a member of the DTA India Development Team, you will be responsible for developing applications, using the Microsoft SQL Server and .Net platform, and providing post development support. This will include building reports; performing data exports; working on extract / load tasks and other similar data integration tasks. This position requires excellent communication and technical skills and involves being knowledgeable of the use of Microsoft SQL Server environment. You will work at the direction of senior development team members.

The development and support will be provided **remotely by E-Mail and/or by phone** to the clients. There is no travel involved to client sites as most of the clients are based in USA.

Responsibilities Overview

- Build new .NET / SQL Server centric applications with MVC.
- Provide ongoing development support for completed projects.
- Maintain and enhance the existing SQL Server database applications, data export jobs and reports.
- Utilize the proprietary company software to resolve technical support requests from clients.
- Design and develop new SSRS / SSIS / SSAS based applications.
- Provide assistance in building/improving internal kits and systems for database and systems administration.
- Create and maintain documentation for all projects.

Job Requirements and Qualifications

- Bachelor's degree in Computer Science with a background in math will be a plus.
- Must have 5+ years' software development experience with SQL Server 2008 / 2012 and .NET framework.
- Must have prior experience with the following SQL Server Technologies:
 - SQL Server Management Studio and Enterprise Manager
 - SQL Server Profiler
 - SQL Server Agent
 - Data Transformation Services DTS
 - Integration Services (SSIS)
 - **Reporting Services (SSRS) (Strong Reporting Skills is a PLUS)**
- STRONG experience with database development using SQL/T-SQL (Stored Procs, Triggers) is required
- Working experience with ASP.Net, MVC, C#, Javascript.
- Microsoft Certification in SQL Server Development (MCITP) is a PLUS
- Experience with scripting to automate processes is a PLUS
 - Experience with NoSQL databases is a PLUS (MongoDB / Cassandra)
 - Experience with Crystal Reports is a PLUS.
 - SQL Server DBA experience is PLUS
- Must be proficient in the use of Microsoft Office Applications (Outlook/Word/Excel).
- Candidate needs to be detail-oriented, work well with other team members, have **excellent communication** skills, and thrive in a fast paced, high-energy, multi-tasking environment.

Compensation

DTA India offers a competitive salary commensurate with experience. The benefits include bonus, health insurance, term insurance and generous package of leaves.

Work Hours

This is a Full Time position and the work is primarily during the hours 9AM – 7PM IST but from time to time will involve evenings and weekend work.

Work Location: Delhi-NCR area
